

5

Numbers worksheet: 5

▶ Count the spots and say. Then draw five spots on the iguana.

Number worksheet 5: Guidelines for parents and guardians

Point to the figure 5 on the worksheet and practise saying the number with your child (Five). Help your child count the spots on the first iguana (there are five) and say the number. Tell him/her to draw five spots on the second iguana. He/She can also colour the pictures. Practise forming the figure 5 with your child. He/She can then trace the shape of the number, either with his/her finger or with a pencil.
