

Numbers worksheet: 4

▶ Say the number. Count and trace the box with four.

Number worksheet 4: Guidelines for parents and guardians

Point to the figure 4 on the worksheet and practise saying the number with your child (Four). Ask your child to say the names of the items of furniture that appear in the worksheet (if he/she knows them). Then tell him/her to look at the groups of items, count and find the group which has four things. Help the child find the answer (the beds) and trace the correct box. Practise forming the figure 4 with your child. He/She can then trace the shape of the number, either with his/her finger or with a pencil.
