

6

Numbers worksheet: 6

► Find and circle six sheep. Trace the number.

▶ 6

Number worksheet 6: Guidelines for parents and guardians

Point to the figure 6 on the worksheet and practise saying the number with your child (Six). Ask the child to say the names of the different animals. Tell the child that he/she needs to find and circle only the sheep. Then help him/her count the sheep aloud (there are six). You can also practise counting the other animals together (1 rabbit, 2 dogs, 3 cats, 4 cows, 5 horses). Practise forming the figure 6 with your child. He/She can then trace the shape of the number, either with his/her finger or with a pencil.
