## Number worksheet 12: Guidelines for parents and guardians

*Play the audio clip for your child to listen and point to the larger numbers 21 to 30. Then practise saying the numbers together, with and without the audio. The child can then trace the numbers, either with his/her finger or with a pencil. Help the child complete the dot-to-dot puzzle by linking the numbers 21 to 30 in order. Encourage him/her to say the numbers while drawing. He/She can then colour the picture of a hippo.*
